Tamron's High-power Zoom Lens Lineup

SLR Camera Lenses

Di II for APS-C format digital SLR cameras
[For Nikon, Canon, Sony*]

16-300mm F/3.5-6.3 Di II VC PZD MACRO (Model B016)

Astounding 18.8x zoom covering wide-angle of 16mm to super-telephoto 300mm. It is a high image quality, high performance high-power zoom lens equipped with VC (Vibration Compensation) and the comfortable PZD (Piezo Drive) autofocus system.

Di For digital SLR cameras
[For Nikon, Canon, Sony*]

28-300mm F/3.5-6.3 Di VC PZD (Model A010)

A high-power zoom lens supporting full-frame digital SLR and evolving to have superior image quality and be more lightweight.

//The Sony compatible mount model is scheduled to be released//

Di II For APS-C format digital SLR cameras
[For Nikon, Canon, Sony*]

18-270mm F/3.5-6.3 Di II VC PZD (Model B008)

A high-power zoom lens that is lightweight and compact while being equipped with VC (Vibration Compensation) and a PZD (Piezo Drive), and capable of 15x zoom ranging from 18mm to 270mm.

Di II For APS-C format digital SLR cameras
[For Nikon, Canon, Sony, Pentax]

AF18-200mm F/3.5-6.3 XR Di II LD Aspherical [IF] MACRO (Model A14)

A high-power zoom lens with excellent mobility in a compact and lightweight body boasting 11.1x zoom capable of shooting almost any scene from wide-angle to telephoto. It corrects aberrations effectively and provides a high level of imaging performance.

Di For digital SLR cameras
[For Sony, Pentax]

AF28-300mm F/3.5-6.3 XR Di LD Aspherical [IF] MACRO (Model A061)

An all-round high-power zoom lens suitable for super-telephoto to true macro photography. Using LD, AD and XR lenses, it offers excellent imaging performance throughout the entire zoom range.

* The Sony mount model does not include VC, since the bodies of Sony DSLR cameras include built-in image stabilization functionality.

For mirrorless interchangeable-lens cameras

Di III For Micro Four Thirds mirrorless interchangeable-lens cameras

14-150mm F/3.5-5.8 Di III (Model C001)

A high-power zoom lens for the Micro Four Thirds format providing agile photography with the desired angle in a variety of scenes.

Di III For mirrorless interchangeable-lens cameras [For Canon, Sony]

18-200mm F/3.5-6.3 Di III VC (Model B011)

Lightweight and compact, while offering excellent image quality. A high-power zoom lens for mirrorless interchangeable-lens cameras.
